## Description

2017 Delta Powerboats 54 Carbon IPS new to market! Come and see this award winning, extremely high-quality sports-cruiser now.

MBY Motor Boat of the Year Award winner

One meticulous owner, very well maintained. 470 hours on the main engines. This boat shows very well.

Fast and efficient with Twin IPS 800 Volvo Penta Pod Drives and a top speed of 35kts.

Just underwent huge refit. Genset 20 hours. Sea-keeper 50 hours.

Delta 54 ips is the original carbon fiber sports-cruiser from Delta Powerboats, setting a new benchmark for fuel efficient performance motor yachts. Naval architect and Delta co-founder Lars Modin has created a formative design that stands out with its merged expression of seaworthiness and sophistication.

Resourceful exterior areas with comfortable and safe deck arrangements combined with authentic craftsmanship, luxury features and state-of-the-art IPS pod drives enable the boat's multipurpose nature – the 54 is designed to excel in all types of activities on the water.

The light and airy deck house is accessed via sliding glass doors aft or a captain's pantograph-opening door on starboard side. Belowdecks a generous owner's cabin forward with en-suite head and shower along with two amidship twin or optional double-guest cabins accommodate six guests in premium-class comfort.

As the world's first production boat with a carbon fiber construction the award-winning Delta 54 delivers unparalleled strength-to-weight ratio and fuel efficiency. Built to each client's specifications she welcomes you to a world of outstanding performance and the opportunity to create the yacht of your dreams.
